Rural Land Legacy Committee

Expanding the Organizational Capacity of RLLC

Supporting Solutions through Community

BUILDING CAPACITY TO PROTECT RURAL LAND LEGACY

Kewaunee County is the only Wisconsin lakeshore county without a land trust. The Rural Land Legacy Committee is a group recently formed to assist local landowners and governments that want to voluntarily preserve and maintain natural habitat, open space and agricultural land in Kewaunee County.

This capacity-building grant from INRP will help this fledgling organization promote its goals and activities, recruit members, develop partnerships with other local groups, and collaborate with other land trusts. Another goal is to begin the process of acquiring a beautiful 33-acre parcel of land adjacent to Lake Michigan. The site is a mix of grassland, woodland and rocky shoreline.

MID PROJECT REPORT

The RLLC has merged with the Glacial Lakes Land Trust (GCL) to develop a Kewaunee chapter of the GCL. A brochure was developed and printed to build GCL-Kewaunee organizational capacity.

RLLC is acquiring its first property, a 33 acre parcel in the township of Ahnapee.

An goal of 50-100 new members by June 2005 is projected.

At a Glance...

Project:

To secure and build the organizational capacity of RLLC by promotional activities, membership recruitment, mailings press and flyers. Network with existing land trust organizations.
